Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Thursday 07 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Remaining cold, with many at risk of snow or ice.

Today:
A weak band of rain, sleet and snow will edge slowly southwards during the morning. Turning icy in places. Brighter in the afternoon, with a few sunny spells developing in the far north. Remaining cold. Maximum temperature 3 deg C (37 deg F).

Tonight:
Another band of rain, sleet and snow will spread southwards during the evening, with slight accumulations likely. Feeling bitterly cold in the wind. Widespread frost developing. Minimum temperature -3 deg C (27 deg F).

Friday:
Feeling bitterly cold with occasional wintry showers though becoming drier and brighter by the afternoon, with lighter winds. Some clearing skies and a sharp frost developing in the evening. Maximum temperature 3 deg C (37 deg F).

Outlook for Saturday to Monday:
Sharp frost and hazy sunshine on Saturday, cloudier later. Mostly cloudy but largely dry and less cold on Sunday. Windy with outbreaks of rain Monday, especially over the western hills.
